

Wide Mouth Hand Clamp

This wide mouth hand clamp is designed for secure gripping and holding of materials. Its adjustable mechanism allows for precise clamping pressure in welding, woodworking, and metalworking applications.

Product Overview

Professional Grade Wide Mouth Clamp

This heavy-duty wide-mouth clamp is engineered to provide secure gripping and reliable holding power for diverse industrial applications. Featuring a robust, durable construction, it is designed for longevity in demanding environments. Its precise, adjustable mechanism ensures consistent clamping pressure, making it an essential tool for welding, woodworking, and metalworking professionals.

Technical Details

Primary Applications

- Tension testing
- Welding
- Woodworking
- Metalworking

Material

Cr-V

Product Code

0202

Key Features

Core Benefits

Adjustable Pressure • Heavy-Duty Build • Corrosion Resistant Alloy
