

Widescreen LED Television with DVD Player

This television features a widescreen LED color display for vibrant visuals. It includes an integrated slot-loading DVD player, HDMI digital connection for high-quality audio-visual signal transmission, and HDCP compliance for secure HDCP content support.

Overview

Versatile Integrated Entertainment

The EHD03 Series offers a high-quality widescreen LED color display designed for clear, vibrant visuals in professional or commercial settings. This unit uniquely combines display technology with an integrated slot-loading DVD player, simplifying installation by reducing the need for external hardware. With support for HDMI digital connectivity and HDCP compliance, it ensures secure and seamless signal transmission for demanding content requirements.
