

WiFi Connected Smart LED Bulb

This smart LED light bulb connects to a WiFi network for remote control and automation. It features energy-efficient LED technology, dimming and color adjustments, and voice control compatibility.

Product Overview

Smart Lighting Experience

This WiFi-connected smart LED bulb provides a seamless way to modernize your lighting setup without complex hardware. Users can easily control brightness and color temperature remotely via a smartphone app to suit any environment. Designed for standard fixtures, it offers energy-efficient LED technology while supporting convenient hands-free voice control functionality.

Technical Features

Smart Features

- Dimmable brightness
- Adjustable color temperature
- Automation scheduling

Connectivity	WiFi
Control Methods	Smartphone App, Voice Control, Remote Control

Performance Metrics

Technology

Energy-Efficient LED

Base Type	Standard Screw Base
