Product Overview

Versatile Smart Lighting

This WiFi-enabled LED light strip provides a flexible and energy-efficient solution for modern indoor lighting needs. With customizable color options and seamless smart home integration, users can easily control brightness, color temperature, and dynamic lighting effects via smartphone apps or voice commands. Designed with a self-adhesive backing, it is perfect for accent, under-cabinet, and decorative applications in residential or professional environments.

Technical Specifications

Performance Metrics

12 W

Power Consumption

12 V

Operating Voltage

Ingress Protection

IP 20

Connectivity

2.4GHz WiFi (IEEE 802.11 b/g/n)

Physical Properties

Strip Length Options

2M, 3M, 5M

Color Configurations

RGB, RGBW, RGBCW

Compatibility

Smart Home Integration

- Amazon Alexa
- Google Home
- IFTTT

Operating Environment

Operating Temperature	0-40°C
Storage Temperature	-40-70°C
