Product Overview

Smart WiFi LED Spotlight

This intelligent GU10 spotlight offers advanced lighting control through WiFi connectivity, compatible with Amazon Alexa and Google Home. Designed with a robust plastic, aluminum, and PC construction, it supports versatile RGB, warm white, and cool white lighting modes. Ideal for modern smart home environments, it provides reliable brightness and energy-efficient performance.

Technical Specifications

Rated Power

5 W

Power Consumption

320 Lm

Luminous Flux

Electrical Properties

Parameter	Value
Voltage	220-240V
Frequency	50/60Hz
Power Factor	e0.5
Base Type	GU10

Optical & Operational

Light Capabilities	RGB, Warm White, Cool White, Remote Controllable, Voice Control
Beam Angle	120 °

Physical & Environmental

Ingress Protection
IP50

Dimensions 49*54mm

Operating Temperature -20 to +40 °C

Lifespan & Warranty

Rated Lifespan 15000 h

Warranty Period 1 year
