Product Overview

Smart Power Management

This compact WiFi-controlled smart plug offers seamless remote control for your household appliances via a smartphone application. Designed with the standard Schuko interface, it supports scheduling and timer functions to enhance convenience and energy efficiency. The device features robust safety standards and integrates easily into 2.4GHz home wireless networks.

Electrical Specifications

Key Performance Metrics

230 V

Operational Voltage

10 A

Maximum Current

2300 W

Maximum Power

Frequency

2.4GHz

Connectivity & Standards

WiFi Standard	IEEE802.11b/g/n
Transmission Range (Free-field)	25 m
Max Transmission Power	18.52 dBm

Safety & Environment

Protection Class

IP20

Certifications

CE, RED, BG Certified

Operating Temperature Range

0–35 °C
