

WiFi Enabled Video Door Phone

This WiFi video door phone provides enhanced security and convenience. The system features a durable outdoor station with a built-in camera, microphone, and speaker, allowing for two-way audio communication and video monitoring.

Product Overview

Smart WiFi Video Door Phone

The RL-B17W4WiFi is a professional-grade video door phone system designed to provide seamless security and remote access control. By integrating directly with a dedicated mobile application, users can monitor their entryway, communicate with visitors via two-way audio, and unlock doors remotely from anywhere in the world. This system offers a comprehensive solution for both residential and commercial settings, ensuring peace of mind through real-time notifications and integrated media recording.
