

Window Mounted Exhaust Fan

This exhaust fan is designed for window mounting. It effectively removes stale air and odors due to its high-speed blade rotation of 1800-2100 RPM.

Overview

Professional Ventilation Solution

This window-mounted exhaust fan is designed to provide efficient air circulation in both residential and commercial settings. Its aerodynamically designed blades ensure rapid rotation speeds while maintaining smooth, noiseless operation. Perfectly suited for kitchens, AC cabins, and conference rooms, this unit effectively removes moisture and odors to keep your environment cool and comfortable.
