

# Window-Mounted Exhaust Fan

This exhaust fan is designed for window mounting. It features a four-blade propeller for ventilating indoor spaces.

## Product Overview

### High-Efficiency Window Ventilation

This window-mounted exhaust fan is engineered to provide reliable air circulation and ventilation for indoor environments. Featuring a robust four-blade propeller design, it efficiently expels stale air to maintain a comfortable atmosphere. The unit incorporates advanced Japanese technology to ensure durability and consistent performance for professional and residential applications.

## Technical Specifications

### Technology Standard

Japanese Technology

### Mounting Style

Window-mounted

### Blade Design

4-blade propeller

### Primary Application

Indoor Ventilation, Air Extraction

## Physical Characteristics

### Form Factor

Square

### Color

White
