

# Windproof Waterproof 3-Layer Softshell Jacket

This windproof and waterproof softshell jacket features a 3-layer construction. It offers excellent breathability, a full front zipper, multiple pockets, and an adjustable hood.

## Product Overview

### Professional Grade Softshell Protection

This high-performance 3-layer softshell jacket is engineered for demanding work environments, offering superior windproof and waterproof protection. Designed with a blend of cotton, polyester, and elastane, it ensures both durability and flexibility for a full range of motion. Featuring practical elements like triple stitching, PVC zippers, and multiple pockets, this garment is an ideal solution for industries such as oil, gas, mining, and road construction.
