Product Overview

All-Weather Windshield Protection

This Windshield Frost and Snow Protector is designed to safeguard your vehicle's front window against harsh winter conditions, including frost, ice, and snow accumulation. Crafted from durable 100% polyester with a reflective silver coating, it effectively minimizes heat absorption during summer months while preventing ice buildup in winter. The lightweight, foldable design ensures quick installation and convenient storage, making it an essential accessory for maintaining clear visibility and interior comfort year-round.

Technical Specifications

Material	100% Polyester with silver coating
Size	190 x 80 cm

Features & Functionality

Key Features

- Protects windshield from snow, frost, and ice
- Reflective silver coating for heat reduction
- Built-in storage bag for portability
