

Windshield Wiper Linkage Assembly

This windshield wiper linkage assembly is compatible with Dodge and Freightliner Sprinter 3500 models from 2002-2006. It facilitates the movement of the wiper arms to ensure clear visibility.

Overview

Reliable Windshield Wiper Linkage

This windshield wiper linkage assembly is engineered for precise operation and long-term durability in commercial vehicles. It provides the necessary mechanical connection and pivot points to ensure consistent wiper arm movement and clear visibility during adverse weather. Designed as a direct replacement part, it meets standard requirements for fitment and function.
