

# Wine Bottle Washing Filling Capping 3-in-1 Machine

This RY24-24-8F 3-in-1 machine integrates bottle washing, filling, and capping into one efficient system. It is designed for wine, pure water, and mineral water bottling applications.

## General Overview

### Integrated Bottling Solution

The RY24-24-8F is a comprehensive 3-in-1 integrated system engineered for the high-efficiency processing of wine bottles. It seamlessly combines washing, filling, and capping into a single automated cycle to ensure maximum hygiene and precision. By leveraging advanced international technology, this machine provides a reliable and streamlined solution tailored for the demanding requirements of medium to large-scale wine production facilities.

## Technical Specifications

### Supported Liquids

- Wine
- Pure Water
- Mineral Water

### Process Configuration

Washing, Filling, Capping, 3-in-1 Integrated

## Performance Metrics

### Model Designation

RY24-24-8F
