

Winter Foam Latex Coated Work Gloves

These winter style gloves feature a foam latex coating for enhanced grip and protection in cold weather conditions. The knitted wrist cuff ensures a snug fit, preventing debris from entering the glove.

Product Overview

Winter Comfort and Protection

These winter-style work gloves are engineered for cold weather performance, featuring a brushed terry knitted acrylic shell for superior insulation. The foam latex palm and thumb coating, finished with a crinkle texture, provides enhanced grip and abrasion resistance. Designed for comfort and dexterity, these gloves are an ideal choice for outdoor tasks and general-purpose work in colder environments.

Technical Specifications
