

Wiper Blade Display Stand

This display stand is designed for presenting wiper blades in retail settings. Constructed from metal, it features a rack for holding wiper blades and a panel for branding.

Product Overview

Professional Retail Display Solution

This durable display stand is specifically engineered to organize and showcase automotive wiper blades in retail environments. Constructed from robust gray metal, it provides a stable and professional platform that enhances product visibility for customers. The integrated rack system ensures blades remain organized and accessible, helping to optimize retail floor space while effectively driving sales.
