

Wire Brush with Plastic Handle

This wire brush features a curved, stainless steel body with tightly packed brass bristles. The brush has an ergonomically designed plastic handle for a comfortable grip.

Product Overview

Professional Wire Brush Set

This set includes two specialized wire brushes designed for heavy-duty cleaning and surface preparation. Each brush features a durable stainless steel blade-style body equipped with tightly packed brass bristles, ensuring effective removal of rust, scale, and stubborn dirt from metal surfaces. The ergonomic plastic handles, available in high-visibility yellow and red, provide a comfortable and secure grip for extended use.
