

Wire Rope Cutting Tool

This wire rope cutting tool is designed for cutting wire rope, piano wire, and steel wire. The blades are drop-forged with high-quality alloy steel and feature induction-quenched cutting edges for durability.

Product Overview

Professional Grade Wire Rope Cutters

These high-performance wire rope cutters are engineered for precision and durability in demanding industrial environments. Featuring drop-forged alloy steel blades with induction-quenched edges, they provide clean, reliable cuts on wire rope, piano wire, steel wire, ACSR cable, and aircraft cable. The specialized tubular handle design ensures a superior strength-to-weight ratio for reduced operator fatigue.

Technical Specifications

Construction Materials

- Drop-forged alloy steel blades
- Induction-quenched cutting edges
- Drop-forged tubular steel joint arms

Certifications

TUV GS, Industry Class Quality

Performance Table

Capacity by Model

Article Number	Tool Size	Soft Material Capacity
603004	8"	5mm
603002	18"	10mm
603001	24"	12mm
603003	36"	14mm
N/A	42"	18mm
