

Wire Scratch Brush with Wooden Handle

This wire scratch brush is designed with a contoured wooden handle for a comfortable, secure grip. Its tightly packed, high-tensile wire bristles deliver aggressive cleaning action on metal surfaces, removing rust, scale, and paint.

Product Overview

Professional Wire Scratch Brush

This durable wire scratch brush features a contoured wooden handle designed for optimal grip and control during heavy-duty tasks. Constructed with tightly packed, high-tensile wire bristles, it provides aggressive cleaning action to effectively remove rust, scale, paint, and stubborn debris from metal surfaces. It is an essential tool for automotive, industrial, and general home maintenance applications.
