Product Overview

Precision Wire Stripping Forceps

These precision wire stripping forceps are engineered for clean and efficient insulation removal across various wire gauges. Featuring hardened steel blades and an adjustable stripping depth, they ensure reliable performance for delicate electrical and electronics work. The ergonomic handle design promotes comfort during extended use, making them an essential tool for both professional electrical technicians and DIY enthusiasts.

Technical Features

Key Features

- Adjustable stripping depth
- Hardened steel blades for clean cuts
- Ergonomic handle design

Applications

Electronics, Electrical, DIY
