

Wire Stripping Pliers

These wire stripping pliers have multiple gauge settings for stripping insulation from various wire sizes. They feature adjustable jaws, ergonomic handles, and a spring-loaded mechanism for easy use.

Overview

Professional Wire Stripping Pliers

These wire stripping pliers are engineered for high-precision electrical and electronic applications. Designed with a reliable spring-loaded mechanism and ergonomic handles, they ensure consistent, clean insulation removal without compromising conductor integrity. The tool features versatile gauge settings to support a wide range of common wire sizes used in professional installations.

Technical Specifications

Supported Wire Gauges (AWG)	22 AWG, 20 AWG, 18 AWG, 16 AWG, 14 AWG, 12 AWG, 10 AWG
Model ID	5227

Key Features

Core Functionalities

- Precision stripping jaws
- Ergonomic handle design
- Spring-loaded mechanism
- Multi-gauge capacity
