

Wired Computer Keyboard with QWERTY Layout

This is a standard computer keyboard with a full QWERTY layout and numeric keypad. It is a wired model with low-profile keys, suitable for desktop computers.

Product Overview

Professional Wired Keyboard

This standard black computer keyboard features a full QWERTY layout, making it an ideal choice for office and desktop environments. Designed with user comfort in mind, it incorporates low-profile keys and a slightly curved ergonomic frame to support extended typing sessions. The inclusion of a dedicated numeric keypad ensures efficient data entry for professional workflows.
