

# Wired Over-Ear Headphones with Noise Iso- lation

These over-ear headphones feature a closed-back design for noise isolation. Padded earcups and a headband ensure comfortable extended use.

## Product Overview

### Professional Wired Over-Ear Headphones

These over-ear headphones feature a closed-back design specifically engineered for effective noise isolation, making them ideal for focused work environments. Designed with user comfort in mind, they include a padded headband and earcups for extended wear. The durable construction is complemented by a sleek metallic finish, ensuring both style and reliability for professional use.
