

Wired Wooden Computer Mouse

This computer mouse features a wooden exterior, providing a unique aesthetic. It has a standard two-button design and a scroll wheel, with a wired connection for desktop use.

Product Overview

Natural Elegance Meets Functionality

This wired computer mouse combines a unique, handcrafted wooden exterior with reliable desktop performance. Designed for professionals who value both aesthetics and durability, its classic two-button layout and responsive scroll wheel ensure comfort during extended use. The natural finish provides a sophisticated, tactile experience that stands out in any modern workspace.
