Product Overview

Professional Wireless Lighting Control

The WL01-A is a high-performance wireless CCT dimmer receiver engineered for precise color temperature adjustment in LED lighting systems. Designed for both residential and commercial applications, this device facilitates dynamic lighting environments without the complexity of hardwired control systems. Its compact, versatile design allows for flexible installation, making it an ideal choice for cabinet lighting and modern integrated architectural light setups.

Technical Specifications

Mounting Options

- Recessed Mounted
- Surface Mounted

Suitable Applications

Cabinet Lighting, LED Lighting Systems, Residential, Commercial, Industrial

Features

System Highlights

Wireless Control • CCT Adjustable • Easy Installation • Compact Design
