

# Wireless Charging Bluetooth Speaker

This is a portable Bluetooth speaker with wireless charging function. The speaker has a wooden enclosure with two speaker drivers.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Audio and Charging Solution

This multifunctional device combines high-quality audio performance with convenient wireless charging capabilities. Crafted from sustainable materials like wood and bamboo, it offers a modern, natural aesthetic suitable for any professional office or home environment. With dual speaker drivers and integrated induction charging, it serves as an efficient desktop companion for both media playback and device power management.

## Technical Specifications

### Wireless Charging Output

**10 W**

Wireless Output

### Audio Configuration

Component	Specification
Driver Impedance	4Ω
Speaker Power	3W x 2pcs

Input Requirements	5V/1-2A, 9V/1.67A
Battery Capacity	1800 mAh

## Performance & Usage

Music Playback Time	6 hours
Full Charge Time	1 hour

## Design & Materials

### Construction Materials

- Wood
- Bamboo
- Plastic
- Fabric

### Key Features

Bluetooth Connectivity • Induction Charging • Wireless Charger
