

Wireless Entry Doorbell

This wireless doorbell features a modern, minimalist design. The system includes a speaker unit and a doorbell button encased in a transparent, protective shell with a digital display.

Product Overview

Professional Wireless Doorbell System

This wireless entry doorbell is a reliable solution for residential and office environments, offering long-range connectivity of over 300 meters in open air. It features advanced auto-learning code technology with 1,000,000 unique sets to prevent interference. Engineered for durability, the system operates effectively in temperatures ranging from -20 to 50 degrees Celsius.

Performance Metrics

Performance Highlights

300 m Operating Range	80 dB Min Ring Volume	433.92 MHz Frequency
---------------------------------	---------------------------------	--------------------------------

Technical Specifications

Reception Sensitivity	-110 dBm
Modulation Type	ASK
Channel Codes	1,000,000 auto-learning sets

Power Requirements

Receiver Power	AC 100-240V
Transmitter Power	DC 3V (1x CR2032)

Environmental

Operating Temperature	-20 to 50°C
-----------------------	-------------
