

Wireless Ergonomic Computer Keyboard

This computer keyboard features a full QWERTY layout, numeric keypad and function keys. Its ergonomic design promotes comfortable typing and includes indicator lights for Num Lock, Caps Lock and Scroll Lock.

Overview

Ergonomic Wireless Design

This wireless computer keyboard features a thoughtful, slightly curved ergonomic design engineered to enhance typing comfort during extended work sessions. It provides a full-size layout, including a dedicated numeric keypad and a complete set of function keys, ensuring versatility for professional tasks. With reliable wireless connectivity, it helps maintain a clean, organized workspace while supporting efficient data entry and navigation.
