

Wireless Magnetic LED Trailer Light Kit

This wireless LED trailer light kit features a magnetic base, allowing for simple installation and removal. The bright LED lights enhance visibility and safety during towing.

Product Overview

Wireless Magnetic LED Trailer Light Kit

This wireless magnetic LED trailer light kit offers a hassle-free, tool-free solution for trailer lighting. Designed for safety and convenience, the heavy-duty magnetic bases allow for quick installation without the need for drilling. The kit includes a transmitter that connects to a standard flat 4-wire vehicle connector, ensuring reliable operation for stop, turn, and tail light functions.
