

# Wireless Microphone System with Sync IR and PLL

This wireless microphone system features Sync IR and PLL technology. It has 4\*100 channels for a wide range of applications.

## Product Overview

### Professional Wireless Performance

This UHF wireless microphone system is engineered for reliable, high-fidelity audio transmission in professional environments. Featuring four metal handheld microphones, it provides robust build quality and a broad operational range suitable for live performances, conferences, and recording sessions. With advanced Sync IR and PLL technology, the system ensures stable frequency selection and minimal interference for clear sound reproduction.

## Technical Specifications

Frequency Range	620-950MHz
Frequency Response	80Hz-18KHz
Operating Range	60 m

## System Capacity

### Available Channels

**400 channels**

Total Channels

## Hardware

Handheld Units	4 x Metal Handheld, Sync IR, PLL Technology
Power Requirements	1.5V x 2 batteries per microphone
