

# Wireless Optical Gaming Mouse

This wireless optical gaming mouse is designed for precision and comfort. It features an ergonomic design, a high DPI optical sensor for accurate tracking, and a smooth scroll wheel.

## Overview

### Precision Wireless Gaming Mouse

This wireless optical gaming mouse is engineered for both precision and comfort, making it an ideal choice for competitive gaming and daily productivity. Its ergonomic design ensures a comfortable grip during extended use, while the high-resolution optical sensor provides accurate and responsive tracking. With a distinct aesthetic featuring a vibrant green top and contrasting white sides, it combines style with functional performance.

## Technical Specifications
