

Wireless Over-Ear Hook Stereo Earbuds

These TWS earbuds provide wireless connectivity for audio streaming and calls. Their ergonomic design includes an over-ear hook for secure placement during movement.

Product Overview

Professional Wireless Audio

These True Wireless Stereo earbuds are engineered for active environments, featuring a secure over-ear hook design that ensures stability during use. Equipped with advanced wireless connectivity, they provide a seamless, cable-free audio experience for streaming and professional communication. The portable charging case includes a digital display, keeping you informed of power levels while ensuring your device remains charged on the move.
