Overview

Advanced Fire Safety Solution

The TSS380D-HR wireless smoke alarm utilizes high-performance photoelectric sensing technology to detect low-energy smoke particles, providing early warning at the onset of a fire. Designed for long-term reliability, it features a sealed 10-year lithium battery, eliminating the need for frequent replacements. With integrated RF433MHz wireless interconnection capabilities, this device supports networks of up to 40 units, ensuring comprehensive coverage for both residential and commercial environments.

Performance & Technical

Sensor Technology	Photoelectric
Wireless Interconnect	RF433MHz
Maximum Interconnected Units	40
Battery Life	10 years
Battery Type	Sealed Lithium (Cr17450)
Certifications	EN14604:2005, NF, CCC, Q

Features

Key Features

- Hush function (8 minutes)
- Automatic dust compensation
- Easy to install twist-on base
- Large Test/Hush button
- Alarm ramp up in Test mode
- Integrated piezoelectric sounder

Warranty

5 years
