

Wireless Rechargeable Security Camera

This battery-powered camera provides wireless surveillance for indoor and outdoor use. It features high-definition video recording, motion detection, and night vision.

Overview

High-Performance Wireless Surveillance

This 100% wire-free security camera delivers crisp 1080P HD resolution for reliable monitoring. Equipped with a rechargeable 5800mAh battery, it offers up to 6 months of service time on a single charge, making it ideal for flexible indoor or outdoor deployment. Advanced features including PIR motion detection, two-way audio, and infrared night vision ensure comprehensive security coverage.
