

Wireless Surveillance System with Network Video Recorder

This wireless NVR kit offers a comprehensive surveillance solution with easy setup and reliable performance. It includes a network video recorder and wireless cameras for seamless video recording and monitoring.

System Overview

Professional Wireless Surveillance Solution

This 5MP high-definition surveillance system provides a reliable and flexible security solution for businesses and residential environments. Utilizing advanced H.265+ compression, the system optimizes storage and bandwidth usage while maintaining superior image quality. With integrated wireless connectivity and robust IP66 waterproof cameras, it ensures stable, weather-resistant operation for comprehensive remote monitoring.

Key Features

5MP Resolution, Wireless Connectivity, H.265+ Compression, Motion Detection, IP66 Waterproof, Remote Access

NVR Specifications

Performance Metrics

4 CH Input Channels	6 TB Max HDD Capacity	5 W Power Consumption
-------------------------------	---------------------------------	---------------------------------

Video Output Resolution

- 1024x768
- 1280x1024
- 1366x768
- 1440x900
- 1920x1080
- 2K

Camera Specifications

Camera Details

Feature	Specification
Resolution	2592 x 1944
Lens	4mm
IR Distance	20 meters
Power	DC12V 1A

Connectivity

Network Connectivity

- RJ45 10M/100M Ethernet
- Built-in Wireless Network Card
- 2.4G Integrated Antennas
