Product Overview

Professional Woodworking Chisel

This high-performance wood chisel is engineered for precision shaping, cutting, and wood removal tasks. Constructed from high-durability 60-CRV steel, it ensures excellent edge retention and long-lasting performance for both professional carpenters and serious enthusiasts. The ergonomic design features a dual-material grip that combines rigid strength with a textured rubber overmold to provide superior comfort and control during extended use.

Technical Specifications

Blade Material	60-CRV (Chrome Vanadium Steel)
Size Range	6mm to 50mm (1/4" to 2")
Grip Design	Dual-Material, Ergonomic, Rubber Overmold, Non-Slip
