Product Overview

Versatile Protection Solution

This woven polyethylene blue tarp is engineered for durability and heavy-duty protection in diverse environments. Constructed with high-density polyethylene (HDPE) yarn and coated with low-density polyethylene (LDPE), it offers reliable waterproofing and weather resistance. Designed with reinforced edges and rust-resistant eyelets, this tarp is an ideal choice for securing construction materials, machinery, vehicles, and outdoor goods.

Material & Construction

Weaving Density Options

- 6x5
- 6x6
- 7x6
- 7x7
- 8x8
- 10x8
- 10x10
- 12x10
- 12x12
- 14x14
- 16x16

Material Composition

HDPE Yarn, LDPE Coating, Laminated

Weight Range

50 GSM

Physical Specifications

Available Sizes

- 3.6 x 5.4m
- 5.4 x 7.2m
- 7.2 x 9m
- 10 x 10m

Edge Reinforcement

Heat Sealed • PP Rope Reinforced

Eyelet Spacing

1m or 3' interval

Applications

Primary Applications

- General Cover
- Construction & Machinery
- Truck/Automobile/Boat Covers
- Swimming Pool & Garden Furniture
- Industrial Cover
- Tents
- Picnic Mats
