Product Overview

High-Strength Vehicle Recovery Solution

This woven tow rope is engineered for heavy-duty vehicle recovery and emergency roadside assistance. Crafted from high-strength polypropylene, it offers superior durability, abrasion resistance, and minimal stretch during towing operations. Equipped with reinforced loops and heavy-duty steel hooks with safety latches, this tool provides a secure and reliable connection for cars, trucks, and SUVs.

Technical Specifications

Suitable For

- Cars
- Trucks
- SUVs
- Emergency roadside assistance
