

WP12 Series Low-Speed Diesel Engine

This low-speed diesel engine was co-developed with a European R&D center. It provides reliability, economy, and comfort, making it suitable for luxury buses over 12 meters and BRT public buses.

Overview

WP12 Series Diesel Engine

The WP12 series diesel engine is a robust and reliable power source designed for various industrial applications. This low-speed engine offers exceptional torque and fuel efficiency, ensuring optimal performance and reduced operating costs. Its modular design allows for easy maintenance and servicing, minimizing downtime and maximizing productivity.

Technical Specifications

Performance Models

Model No.	Power (kW/rpm)	Torque (N-m/rpm)
WP12.336E40	247/1900	1600/1000-1400
WP12.375E40	276/1900	1800/1000-1400
WP12.400E40	294/1900	1920/1000-1400
WP12.430E40	316/1900	2060/1000-1400
WP12.460E40	338/1900	2110/1000-1400

Displacement	11.596 L
