

Wrapped Metal Bars

Rectangular metal bars are bundled and wrapped for secure storage and transport. The bars are secured with banding straps and plastic wrapping, making them suitable for construction and manufacturing applications.

Product Overview

High-Quality Wrapped Metal Bars

These rectangular metal bars are professionally bundled and secured for efficient transport and storage. Each unit is tightly wrapped in protective plastic and reinforced with industrial banding straps to maintain structural integrity during handling. Ideal for diverse construction, infrastructure, and manufacturing applications, these bars are ready for immediate integration into your supply chain.
