

Y-Grip Shovel with Blue Steel Blade

This shovel features a durable steel blade and a varnished wooden handle. Its Y-shaped grip provides enhanced control and comfort for digging, lifting, and moving materials.

Product Overview

Professional Grade Y-Grip Shovel

This robust shovel features a durable blue-painted steel blade paired with a smooth, varnished wooden handle for reliable performance. Designed with an ergonomic Y-shaped grip, it provides enhanced control and comfort during heavy-duty tasks. The blade curvature is specifically optimized for efficient scooping and soil penetration in both landscaping and construction environments.
