

Yamaha SMT Pick and Place Nozzle 213A

This SMT pick and place nozzle is designed for component handling. It ensures accurate placement of electronic components on printed circuit boards.

Product Overview

Precision SMT Pick and Place Nozzle

This high-quality nozzle is designed for automated surface mount technology assembly processes. Engineered for reliability and precision, it ensures the accurate pick-up and placement of electronic components onto printed circuit boards. Its durable construction supports efficient SMT production environments.

Technical Details

Part Number	KGS-M7730-A0XD
Compatible Machine Series	YG100, YG200, YV100X, YV86, YV100D, YV64D
Nozzle Series	213A

Inventory and Quality

Quality Standard
New • Original

Product Compatibility List
