

Yellow Recreational Bicycle with Unique Wheel Design

This yellow bicycle features a unique design with a small rear wheel and a larger front wheel. It is equipped with a kickstand and front and rear fenders and is designed for recreational use.

Product Overview

Distinctive Recreational Design

This yellow recreational bicycle features a unique, eye-catching aesthetic with a distinct wheel size variation between the front and rear. Designed for leisure and comfort, it combines stylish elements like a flame-patterned seat with practical components such as fenders and a kickstand. The sturdy steel frame construction ensures durability for casual riding experiences.
