

Yellow Step-Through 125cc Underbone Motorcycle

This step-through motorcycle has a single-cylinder engine, likely in the 50cc to 125cc range, making it suitable for urban commuting. It is equipped with a telescopic front fork suspension, a swingarm rear suspension, and drum brakes on both the front and rear wheels.

Overview

Urban Mobility Solution

This 125cc underbone motorcycle features a convenient step-through frame design, making it exceptionally easy to mount and dismount for daily urban commuting. Its lightweight construction is optimized for fuel efficiency and maneuverability, perfect for short-distance travel. Equipped with essential safety features including lighting and mirrors, it provides a reliable and practical transportation option for city environments.
