

YG100 Vacuum Sensor Board

This is a vacuum sensor board for YG100 systems. It ensures precise component placement and reliable operation through vacuum sensing.

Product Overview

Precision Vacuum Sensing

This vacuum sensor board is designed to ensure precise component placement and reliable operation within automated assembly systems. Engineered with high-quality electronic components and durable construction, it provides consistent performance for sensitive vacuum sensing tasks. It is an essential component for the maintenance, repair, and upgrade of industrial machinery, ensuring operational continuity.

Compatibility

Compatible Part Numbers

Component Type	Part Number
Vacuum Sensor Board	KHL-M4592-00
System Unit Assy	KM5-M4200-01X
System Unit Assy	KM5-M4200-02X
System Unit Assy	KM5-M4200-03X
I/O Conveyor Unit	KM5-M4580-011
Vision Board Assy	KM5-M441H-021
Vision Board Assy	KM5-M441H-02X
Servo Board Assy	KM5-M5840-020
Servo Board Assy	KM5-M5840-02X
Servo Board Assy	KM5-M5840-03X
Servo Board Assy	KM5-M5840-04X
Connection Board Assy	KV7-M4550-110
Connection Board Assy	KGA-M4550-100
I/O Head Assy	KV8-M4570-000
I/O Head Assy	KM1-M4570-001
I/O Board Head	KV8-M4572-012
I/O Conveyor Board	KGT-M4580-012
I/O Conveyor Unit	KM5-M4582-101
Vision Board	KGJ-M441H-030
