

YG12 SMT Head Shaft

This is a head shaft designed for YG12 SMT pick-and-place machines. It is a precision-engineered component that ensures reliable performance.

Product Overview

High-Precision Head Shaft

This original new head shaft assembly is engineered for professional surface mount technology (SMT) equipment. Designed to meet strict performance standards, this replacement component ensures precise mechanical movement and operational reliability. It is a critical spare part for maintaining the integrity of assembly head systems in high-speed manufacturing environments.

Technical Details

Condition

Original • New

Primary Part Number

KHY-M7106-B0

Compatibility List

Reference Part Numbers

- KGB-M71S0-50X
- KV8-M712S-A0X
- KM9-M7107-00X
- KM9-M7106-00X
- KV8-M713S-A0X
- KV8-M711S-A0X
- KGB-M711S-A0X
- KGB-M712S-A0X
- KGT-M712S-A0X

Compatible Equipment Series

YG12, YV100X, YV100II, YV100XG, YG200X
