

YS100 SMT Machinery FNC Shaft

This is a FNC shaft designed for YS100 SMT machinery. It is a crucial component for ensuring the reliable operation of the equipment.

Product Overview

Precision Engineering for SMT Machinery

This original, high-quality FNC Shaft is designed specifically for compatibility with YS100 SMT assembly systems. It serves as a vital component for maintaining the operational reliability and precision of your production equipment. As a genuine spare part, it ensures seamless integration and long-term performance consistency.

Product Specifications

Condition

Original • New

Part Number

KJJ-M710S-A00

Compatibility

Compatible Machinery

YS100

Related Components

Compatible System Assemblies

Component Name	Part Reference
BOX ASSY. C/R	KGA-M4110-00X
MOTHER BOARD ASSY.	KGA-M4510-00X
SERVO BOARD ASSY.	KM5-M5840-03X
SYSTEM UNIT ASSY.	KW3-M4209-00X
DRIVER BOARD ASSY.	KJ0-M5810-K4X
FAN MOTOR ASSY	KGA-M4185-10X
