

YS100 SMT Shaft Head Sub Assembly

This is a shaft head sub assembly designed for YS100 SMT pick-and-place machines. It ensures accurate and reliable component placement during PCB assembly.

Product Overview

Precision SMT Shaft Head Sub Assembly

This high-precision Shaft Head Sub Assembly is designed specifically for YS100 Surface Mount Technology equipment. It serves as a critical component for ensuring accurate and reliable electronic component placement during assembly operations. Built to original quality standards, this sub-assembly helps maintain optimal machine performance and production consistency.

Key Attributes

Condition

Original • New

Part Number

KJJ-M7140-C0

Compatibility & Parts List

Component Overview

Part Code	Description
KM0-M711C-02X	NOZZLE C
KM0-M711D-00X	NOZZLE D COMP
KM0-M711E-00X	NOZZLE E COMP
KG9-M7210-10X	CCD CAMERA
KM8-M7600-00X	FIDUCIAL LIGHT ASSY
KH5-M9176-00X	CYLINDER ASSY
