Product Overview

Industrial Power Solutions

This diesel generator set offers a versatile power solution suitable for various industrial and commercial environments. Engineered for durability and reliability, it features robust protection systems and noise-reduction technology. The units are designed to provide stable, continuous, and efficient power output, ensuring operational continuity in critical scenarios.

Technical Specifications

Robust power generation unit designed for heavy-duty industrial and commercial applications.

Output Power Range

8 kW

Min Power

2200 kW

Max Power

Fuel Type

Diesel

Common Applications

Industrial, Commercial, Residential Backup, Emergency Power, Telecommunications, Construction

Safety & Control

Low-noise operation unit equipped with safety features and advanced control systems.

Standard Safety Features

- Four-protection control system
- Multiple warning functions
- Emergency stop button
- Overload protection
- Short circuit protection

Design & Build

Mobile generator unit mounted on a trailer, featuring integrated floodlights for outdoor and emergency deployment.

Enclosed unit featuring easy-access maintenance panels and ventilation grills for optimal performance.

Enclosure Features

- Weatherproof housing
- Soundproof material
- Rain-proof shutter design
- Vibration-isolated steel base frame
