

# Zhangjiajie Riverfront Development Plan

Comprehensive plan for the development of the Zhangjiajie River-along Scene Belt. The design includes residential buildings, commercial structures, and landscaped public spaces.

## Project Overview

### Development Vision

The Zhangjiajie Riverfront Development Plan focuses on the strategic planning of the River-along Scene Belt. This comprehensive design integrates residential, commercial, and public infrastructure to create a cohesive urban environment. By prioritizing pedestrian walkways, extensive green spaces, and waterfront accessibility, the project aims to harmonize urban living with natural riverfront landscapes.

### Development Scope

Urban Planning, Landscape Architecture, Waterfront Development, Mixed-Use

## Design Features

### Key Development Components

- Residential zones
- Commercial structures
- Landscaped public spaces
- Pedestrian walkways
- Waterfront features
