

Zigzag Stitch Sewing Machine

This robust machine is designed for heavy-duty sewing tasks. It features adjustable stitch length and width, ensuring precise and consistent stitching on various fabrics.

Product Overview

Industrial Zig Zag Performance

This industrial sewing machine is engineered for high-speed, heavy-duty applications, providing reliable performance in demanding environments. Designed for precision and durability, it excels in garment manufacturing, upholstery, and various textile assembly tasks. With adjustable stitch controls, it offers the consistency required for professional-grade sewing on a wide range of fabrics.

Technical Features

Operational Capabilities

- High-speed operation
- Adjustable stitch length
- Adjustable stitch width

Model Identifier	SD-20U33
Applications	Garment Manufacturing, Upholstery, Industrial Sewing
